Settling In With Northcare

Northcare (Scotland) Ltd. is a family owned and operated business which has been established for over 30 years. We own and operate sector leading, luxury care homes in Edinburgh, Glasgow and Stirling.

We take the time to get to really know our residents, both before they arrive and during their stay with us. Good communication is central to residents happily settling in successfully with us and we like to find out as much as we can. Prior to arrival we discuss with our new client, and ideally also with their relatives, their background and complete a life story book. This enables us to provide personal care and dialogue that is tailored specifically to their needs.
